

## The Top 20 Most In-Demand Jobs in Australia and Here's How You Can Get into One

“Jobs and Skills Australia” recently posted a quarterly Labour Market Update containing data from December 2022 to February 2023, highlighting the list of Australia's top 20 most in-demand occupations.

While skills shortages are currently observed in a wide range of occupations, there are several key areas of the labour market, notably caring occupations, and digital and data occupations, where shortages may be more pressing. There has even been a high vacancy rate in certain regions of Australia. The list below may be a hint for you on which jobs could be a good choice to start your career where you're definitely going to be sought after.

With this list of in-demand jobs in mind, have you thought of what's likely to happen as you try to kick-start your career? Well, leave it to us! We might become partners in achieving your vocational goals.

Do you see yourself working in schools as a child educator? Or in the IT industry? How about in the hospitality industry? Or in the construction and engineering field? Or in the Business Management area? If your answer is yes, then we can start figuring out how you can get into it.

First and foremost, you need to ask yourself, “How can I be qualified?”. In order to be competent and confident that you’ll succeed in the long line of job applicants, you need skills and certification that will make you stand out among the pool of job seekers. Here, vocational education comes in handy.

Vocational Education and Training (VET) equips students with practical experience and technical skills in a specific type field. Employers generally prefer to hire people who have gone through vocational training since they are equipped with the necessary skills and practical experience. Companies will even invest in employees to take further training in vocational institutions as needed in fast-growing industries that require new additional skills to make employees become more sufficient. Hence, vocational training guarantees employment.

Among the top 20 in-demand jobs, the **Sydney School of Business and Technology (SSBT)** offers courses that are pathways to **9 in-demand jobs** in the list which are **Child Carers, Construction Managers, Programmers, Chefs, ICT Business Analyst, Engineering, Early Childhood Teacher, Project Administrators, and ICT Specialist.**

Your journey goes from enrollment to getting qualified certification recognized by employers and landing these jobs. SSBT is also a registered training organization (RTO) that delivers nationally recognized training in the VET sector. Our courses meet the needs of students, employers and industries, offering skills which are increasingly important in an advancing technological world.

In addition, you get to experience on-the-job training and industry work placements to attain the practical skills needed for the job, making students job-ready thanks to the guidance of SSBT student support team with job applications, interviews etc. Note that course duration varies. Courses can take from 4 to 8 terms or up to 12 terms. In SSBT, we are holding classes both online and face-to-face allowing students to sync their work and classes perfectly.

Finally, to enroll for the course, you need to complete the online application. SSBT will assess your completed application and get back to you with an Offer Letter. SSBT also has been a home to international students from various countries around the world. Hence, international students are very welcome to apply and enroll.

Ready to kick start your career? As they say, education is the key to any success. If you are determined to get a job but have no idea where to start—learning is the answer. Start investing in your skills and become qualified. As the world is constantly evolving, we should too and as the world needs more and more people to do work, we should be equipped and certified in order to fulfill those vacancies—at the end of the day, we should also remember that everything starts from learning.
